**REPORT OF ENGINEER:**

Mr. Juneau reported:

We continue to have meetings monthly with the CORPS of Engineers for the cut off wall project. There is so much going on that we are going to start meeting every two weeks, due to all the easements and rights of way and disposal sites necessary for the cut off wall.

Lansdowne project designs are completed. The pipeline inspections are seventy percent complete. Illinois Environmental Protection Agency (IEPA) has an ordinance that has to be passed by our Board as to how this loan will be paid back. Craney will address this later in the meeting.

**REPORT OF ATTORNEY:**

Attorney Craney reported:

The deep cut off wall as Charlie Juneau indicated we have to get together a lot of easements. The Army Corps of Engineers has mandated once we insure there are the appropriate easements in place. I have to sign and give them an affidavit that I guarantee on behalf of MESD that we have the rights for them to do the work. The Army Corps of Engineers wants us to obtain 4 additional rights of entry.

Funding for the IEPA loan, the statute does not give a lot of options for the District on funding.

1. Ballot and Vote
2. Board Vote
3. Debt Certificates – is not available to us.

The bond attorney is putting together a letter to say how we need to structure this loan and I will forward it to the IEPA.

### **REPORT OF EXECUTIVE DIRECTOR:**

Foreman Hillman presented his report:

Superintendent Fancher reported:

We have caught some four wheelers on the Levee. We have been hauling rock and grading, fifty percent of Hartford done.

Deputy Superintendent Irby reported:

My staff is in pump stations right now but we have been working with Randy Presswood on Levee wall.

I picked up cameras to catch the people tearing up the Levee.

Superintendent Presswood reported:

A couple of my guys are in pump stations. We have been working on front levee removing concrete debris that has been there for a couple of years. We are in the process of taking down a two story concrete building.

Deputy Executive Director Sawicki reported:

Charter is coming in today to do a survey on the cost to change to fiber optic.

Wastewater treatment Board meeting was this month. Glen Carbon wants to add Troy to their lines which would bring in more flow. This should reduce everyone's price.

Occasionally commercial customers complain about a high value. Two of them came in high Dominoes Pizza and Rays Restaurant. I ran a test on both of this places and it turns out that Rays Restaurant did have an extraordinary high reading so we did adjust it. Dominoes reading were not out of line so that bill stands.

Executive Director Adler reported:

There are some purchases we wish to make but there is a lag of money into the District until we start receiving the tax revenue in July. Until then we are watching are expenditures, so that is what is holding up the bidding of the dump trucks.
